BALLISTIC CURTAIN

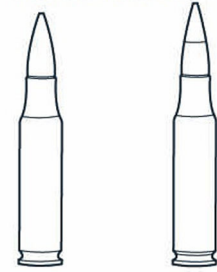

3M to 4M pesos is the cost to bulletproof a vehicle that withstands threats ranging from a 7.62 FMJ rifle and some grenade attacks. However, statistics indicate that majority of ambushes were carried out by riding-in-tandem assassins using pistols. Now, you can protect yourself and fortify your vehicle to withstand such pistol threats at a fraction of the cost!

The **BALLISTIC CURTAIN** is made from Armored PE - a ballistic material that has a protection rating of NIJ LEVEL 3A. This means you are protected against ammunitions ranging from 9mm FMJ to 44 magnum SJHP.
